

Daily Eagle

M. M. MURDOCK, Editor.

LIANE DE POUGEY AND KING EDWARD.

Mme. Liane de Pougey has arrived. She is French, of poor parentage, is uneducated, is wild. She is sinuous, sensual, on the Greek order, and a brunette.

She has had on her string a king or two, a whole batch of princes, many politicians, and a few literary men of the poetical kind. Some time ago she was ripped up the back by another woman, who was an actress and who chided Liane for lacking visible means of support.

The explanation of the reason that an old veteran like Edward should take up with a woman who has ruined a half dozen young men of wealth, who has been the object of repeated duels, who is not cultured, is only to be found in the woman's personality.

It isn't all face and figure—it is the charm back of both which makes them incandescent. Occasionally women of this kind plunge into view, or are sent by the devil who wants a vacation.

In comparison with such a woman dynamite is a chocolate bonbon. A glance of her eye will net a man of monumental virtue; the bow of her smile will drop a saint in the dust in the agony of temptation, and a touch of her hand will turn a philosopher into a Sayer. She is inexplicably irresistible.

Yet there is escape for her. It was Xenophon who, conscientiously anxious to be high minded and worthy, went to Socrates and asked him how he should escape such a woman whom he wished to escape and didn't wish to escape. Socrates said: "Xenophon, when you see that woman, turn and run for your life."

Since then the kind has improved. It doesn't do to risk your feet. The thing for King Edward to do is to take an automobile and get somebody to tie him in first.

REASON FOR ANTI-THIRD TERMERS.

The fathers of the republic were of different minds, doubtless, about the wisdom of permitting successive terms of the presidency to be held by one man. Washington, in the oft-quoted passage of his Farewell Address, laid his final retirement from the presidency rather upon the fact that the young republic could now get along without him than upon any notion of the wrongfulness of his continuance in office.

Mr. Jefferson is the authority against a third term most frequently quoted in company with Washington. But Jefferson was a man of impulse, and sometimes he was worried over things which at other times he regarded with great equanimity, if not actually with favor.

Hope never dies. Mr. Leshman, the United States minister at Constantinople, has informed the state department that he has received another promise, the second from the Turkish government, that the indemnity of about \$30,000 demanded on account of the destruction of American property in Armenia, in 1894, would be paid.

Minister Tirrell in President Cleveland's administration was the first to claim the honor of a promise from the Sultan. Then Mr. Angell went to Constantinople especially to collect the indemnity, and brought back a whole wicker basket full of promises.

From time to time the government concludes to "make a demonstration," but this never appeals the Sultan. He always hobbles up smiling with more promises.

Twisting the British lion's tail is not the only hard job in the world. To rig a Spanish wireless around the Sultan's neck that will twist that \$30,000 out of him is fully as difficult. Isn't it about time to make another demonstration?

TUBBS AND TROUBLE.

The New York Evening Post says: "The dismissal of Prof. Frank D. Tubbs from the chair of natural sciences in Wesleyan University at Salina, Kan. throws an interesting light upon the standards of orthodoxy in that state."

THE SCHOOLMASTER'S TALE.

One evening when I was in my study at home a stately woman accompanied by a boy who was as shy as a fawn, was shown to me a letter from an Episcopal minister in an eastern city. I think the woman's manner would have evoked my sympathy, but bearing a letter from the minister I knew to be great and good in his profession, I gave her my immediate consideration.

She was on her way to Australia, where her husband was an officer in the English army. She might be absent a year. She wanted to leave her boy where he would have the advantages which she had been assured by the good minister.

The prospective settlers are growing a good deal over the lavish manner in which the school sections are to be handled. Ed Marchant, of Cleo Springs, says that one of the prime causes of the prosperity of secret societies is the lack of fraternity in churches.

The city council of Oklahoma City has made a resolution to the effect that a little party in Maywood addition shall be known as "Col. Stiles' park."

Secretary Hitchcock sat on the Lone Wolf gang Saturday. They wanted to see the president. Secretary Hitchcock told them "no," and sent 'em away with long faces.

Chief Brown, of Oklahoma City, has been made out to inspect and to be hoped sincerely that he will dispose of some of his malaria and try to like a few people in this world.

Two boys at Cleo got a team and started out to see the world. They were overhauled, brought back and the infirmation for travel in the region was drawn to another part of the autonomy by the application of a shingle politico.

A drunken Indian created a scene in Minco the other day by falling into the gutter and staying there. The town has no patrol wagon, so a party was requisitioned, the drunken Indian was dumped in, taken around to an alley and dumped out.

Cherokee News: Miss Ruby Higdon, in a letter to the editor's wife, says: "If you haven't a cave, have one dug at once. Do not put it off. This is good advice, and from one who has been there." She was in the twister at Eddy.

One of the judges of election in Topeka in the majority campaign was named Gamouk.

The number of appointments it falls to Governor Stanley's fortune to appoint is piling good fuel on the tender of his senatorial boom.

State Senator Fremont Ledy, of Butler county, has been appointed by Governor Stanley a member of the state text book commission.

Judge Hook last week held that Indians are not full citizens. But they are usually when they can get hold of whiskey or lemon extract.

Possibly the appointment of a pension commissioner will arrive this week. It will be Judge Samuel Peters. Evans is to be given another place.

"I feel tough," said a man yesterday. "I can't see what's the use of life, anyhow. I guess I'll go up to Emporia and see if I can't get into the outside wave."

It has come to light that some of the colored people of Leavenworth are secretly arming themselves "to keep the white people from infringing on their rights."

Mrs. Mary E. White, a Topeka woman, who has been private secretary to Carrie Nation, has asked for \$300 salary. Mrs. Nation's reply is that she has no money. Mrs. White was working for glory.

D. W. Helmer, one of the leading druggists of Emporia, has had his liquor permit annulled as a result of C. T. U. efforts. The reason says that he had other druggists headed for the pillbox.

Senator Burton says that he will not announce his recommendations for federal appointments—that he will let the first word of his selection be the announcement of appointment by the president.

There is a story walking the highway to the effect that the Burton folk are working on M. K. Low to be a candidate for the United States senate. In case he is, Curtis boom will have to go to the six track.

Professor Cottrell, of the Kansas Agricultural college, predicts that a beef famine is coming. But Kansas has not getting tangled up into statistics and falling over herself trying to find something terrible.

John Brewer says it is true that he used to get up every morning at four o'clock, but that in recent years he finds he needs more sleep, and doesn't arise until five o'clock. Think of a man on the supreme bench missing the greatest of all luxuries, a morning snooze.

It is reported that John O'Day, the rich man of Emporia, has been known to see in Kansas, is married the third time—this time to his stepdaughter. His former wives are living. The second wife, who is from Kansas, is a competent scholar in St. Louis recently because of the stepdaughter.

Lawrence Journal: For some weeks a story has been going the rounds of the newspapers that the faculty of the medical school of the University of Kansas, and a number of others have been recruited to regard to it. For a number of years there has been a student at the university named Matthew Johnston. The story went out some time ago as a member of the faculty. He is accredited with having made a wonderful discovery that prevented, in the article, the recruitment of medical students. The story was to the effect that Johnston had discovered a germ which by proper incubation would turn a negro into a white person, or would make a white person an Alton.

The details were entered into in the press, and it was said that Johnston had been successful in his experiments and had changed one negro's color so that his skin was a light brown, and he would pass anywhere as a white man. It also told how the experiments on white subjects had changed eyes, hair and complexion so that the Alton result was secured. The recruitment was set forth in such detail as to be convincing to the casual reader, and to even render the subject and his results so plausible that some medical men took it up. The letters that have come in in regard to the matter have been from widely separated points, and indeed that the article was very widely read. There is not the slightest foundation for the story, in any of its details, and the university has been called by the faculty, and that it was voted that in each minute description as were given in the treatment of the subject.

OUTLINES OF OKLAHOMA.

The decision of the Washington court on the Lone Wolf suit will be handed down today or tomorrow.

This year Dennis Flynn will jerk the American eagle tail-headed, on the Fourth of July at Chandler.

The governor of Alaska and the governor of Porto Rico get a better salary than the governor of Oklahoma.

Mrs. James A. Nichols, of St. Reno, who was injured in a runaway and had to have her leg amputated, is dead.

The Altus News wants to know if the new Transvaal road will permit a man to be saved under the organic act.

If there is gold in the Wichita mountains it is about time somebody dug a little of it out into the world and showed it.

In one Oklahoma town the cherries were so thick in one man's orchard that he simply cut the trees down and threshed 'em.

The prospective settlers are growing a good deal over the lavish manner in which the school sections are to be handled.

Ed Marchant, of Cleo Springs, says that one of the prime causes of the prosperity of secret societies is the lack of fraternity in churches.

The governors of New Mexico and Arizona will be re-appointed. They had fought on them similar to that made on Oklahoma.

The printer who makes up the Shawnee Herald is an artist, and the pressman is another. The Herald is a thing of beauty and a joy forever.

Stuffed of the Orient, writes to the editor of the Augusta News that the steel for the road from Anthony to Augusta has been purchased.

It is inevitable that when the drawing takes place, every time a man draws a good claim some of the newspapers will speak of it as "luck."

Bill Cross, of Oklahoma City, who is good-looking, says the Democratic nomination for congress, is known by the traveling men as "The Omniscient."

The city council of Oklahoma City has made a resolution to the effect that a little party in Maywood addition shall be known as "Col. Stiles' park."

That Lincoln county man who has gone insane over worrying for fear his wheat crop would fail is an instance of what a perilous occupation wheat-growing really is.

Secretary Hitchcock sat on the Lone Wolf gang Saturday. They wanted to see the president. Secretary Hitchcock told them "no," and sent 'em away with long faces.

Chief Brown, of Oklahoma City, has been made out to inspect and to be hoped sincerely that he will dispose of some of his malaria and try to like a few people in this world.

MORE TRANSVAAL TRIBULATION.

Just as certain optimistic and hopeful Englishmen began to breathe easier and to imagine that they saw the end of the Transvaal trouble and expense, dark rumors of new tribulation and added expenditures came to their ears.

The fated treaty government, now in precarious power, has decided, according to the London correspondent of the New York World, to levy the enormous sum of \$250,000,000 on the owners of the gold mines of the Transvaal to help meet the cost of the war against the Boers.

But on the very day in which the report of this proposed gigantic levy is published, comes tidings from Germany that the entire press of Berlin severely condemns the report of the British Transvaal concessions committee as being high-handed and denying private property rights in war, against the practice and theory of all civilized countries.

Small wonder, indeed, if more than one Englishman feels tempted to say, in view of the prospect of seemingly endless costs of the Boer war: "Devil take the Transvaal! If England had never undertaken the abrogation of the Boer republics, how many hundreds of thousands of pounds her people might be in pocket today!"

LACK OF JUDICIAL PROGRESS.

In his latest work, "The Riddle of the Universe," Ernst Haeckel speaks almost with despair of the backward condition of government and judicial administration at the beginning of the twentieth century. The eminent scientist says:

"Not a week passes in which we do not hear of judicial decisions over which every thoughtful man shakes his head in despair; many of the decisions of our higher and lower courts are simply unintelligible. We are not referring in the treatment of this particular 'world-problem' to the fact that many modern states, in spite of their paper constitutions, are really governed with absolute despotism, and that many who occupy the bench give judgment less in accordance with their sincere conviction than with wishes expressed in higher quarters."

Haeckel was here speaking of judicial conditions in Europe, and especially in Germany, of which he was a witness. He hadn't read the last opinion of our own supreme court.

FREE TRADE WITH PORTO RICO NEAR.

Porto Rico, as Treasurer Hollander has assured Governor Allen, will be ready for free trade with the United States when the new tax law passed at the recent session of the insular legislature shall have become operative in all its parts, which will be on July 1 next.

The Porto Rican government act of congress, which contained the provision for the collection of 15 per cent of the Dingley rate on exports to and imports from this country, also provided for the discontinuance of the collection of these duties at the end of two years or whenever notice should be given by the insular government that a system of taxation sufficient to the maintenance of its political household had been enacted.

In the latter event authority was given to the president to abolish the existing tariff on trade between this country and the island by proclamation.

King Edward VII. is stuck on Lina de Pougy, the most beautiful of French women. He is winning and dining her. Liane's record as favorite is: King of Belgium, Prince Napoleon, General Boulanger, Duke of Cambridge, Prince Henry of Orleans, Lord Ouslow and Jeanne Lorraine, the poet.

If you are a bluffer, don't let anybody find it out. Two hot jakes which have been dropped are Tillman and McLaughlin. The public found they were bluffing and won't listen to 'em.

The New York minister who says that Mr. Carnegie's example in the library fine is notice to the young men that education doesn't count like material progress, has been thinking.

A Kansas City reporter asked Lulu Kennedy if she dreaded to go to the penitentiary. She gave an answer that thrilled the reporter. She said she did dread it.

Dowie of Chicago says that the doctors are planning to kidnap him, beat him until he is insane, and then imprison him. Dowie has a lot of fun with himself.

General Callie, the Filipino general, has agreed to surrender his force, which numbers about 500. He does it in the interest of his health.

Courts of the first instance have been created in the Philippines and seventeen judges appointed. And eleven of the judges are Americans.

They have unveiled a statue of Bismarck in Germany. And as Germany grows older the Bismarck statues will increase yearly in number.

As proved by the verdict in the Kennedy case at Kansas City, it isn't always safe, by ten years or so, for a woman to kill a man.

John G. Woodley, the lecturer of Chicago, has started on a tour of the world "to get material for a lecture." He is simply kidding.

Phillips, who formed the company to corner May corn, last Saturday sent out \$1,000,000 to people who helped him in the deal.

Everybody hopes that Pingree will get well. Pingree is an individual whom organization has never humiliated or humiliated.

The British liked Dewet the other day, they say; but they didn't capture him, and Dewet isn't licked till he is taken.

King Edward ought to try to be good. He is old enough now for goodness to be a habit.

Roosevelt may not rather be right than be president, but he would rather kill a bear.

The British have that elated feeling again that the Boer war is over.

Honest Story

No one can read the following lines without being impressed by their clear and convincing words. Every sentence tells. The language is that of truth. It is almost classic in its simplicity—graphic in picturing the ills of every-day life as they actually occur:

I thought I would write and tell how much good Ripans Tablets have done me. My trouble began four years ago. I would get up tired in the morning, after all over headache, dizziness in the eyes and not much appetite. I was always troubled with constipation and it grew worse all the time.

I doctored with several different doctors and never got any relief. I kept getting worse and came to the country about a year ago thinking the climate would do me good. I was so miserable I could hardly live and did wish to die, as I thought it my only relief. But I am glad that such was not the case. I kept reading the Ripans Tablets, and they sounded so real I thought I would give the Tablets a trial.

After eating, my stomach would burn and heat and I would have a severe pain in the left side of my back and was so nervous I could not be still. I always had a coated tongue and a sour taste in my mouth. I would have pain in the liver and my complexion was a greenish yellow. When night would come every inch in my whole body would ache as I could not sleep. I had night sweats. I could not walk any distance because I had not the strength. For Ripans Tablets came to my relief at last. I felt better after taking the first trial. They did not act too readily but were just the right medicine, and to-day I praise them above all others. Three of my friends are using them with marked relief, so is my mother. I want to mention the fact that I now can eat, sleep and walk better than I have for years. But I keep the Tablets on hand for fear I might get sick. I am seventy-three years old and the mother of two children, and I do all my own work. Mrs. M. King, Marston, Burlington Co., N. J., April 8, 1901.

There is scarcely any condition of ill-health that is not benefited by the medicinal use of a S.P.A.S. Tablet, and the price, 10c per box, does not get low from any cause of justice, for in ordinary use they are really cured. A family containing 100 persons will use the Tablets 100 times. The Tablets contain 10c per box, and are recommended. For sale by Druggists.
